BLOOD DROP SIZE
Meters specify how much blood, in microliters, is needed to get an accurate reading. Some meters allow you to reapply blood within a few seconds if your sample size was too small, so you don’t waste a strip.

KEY

- **audio capability**
- **backlight**
- **BP** measures both blood glucose and blood pressure
- **wireless Bluetooth capability**
- **requires user coding**
- **can save data to the cloud without having to push the data to another device**
- **computer download capability**
- **also tests blood ketones**
- **communicates with insulin pump**
