AMERICAN DIABETES ASSOCIATION RESEARCH FOUNDATION, INC.

FINANCIAL STATEMENTS

December 31, 2010

(with Independent Auditors’ Report Thereon)
Independent Auditors’ Report

The Board of Directors
American Diabetes Association
Research Foundation, Inc.:

We have audited the accompanying balance sheet of the American Diabetes Association Research Foundation, Inc. (the Foundation) as of December 31, 2010, and the related statements of activities, functional expenses, and cash flows for the year then ended. These financial statements are the responsibility of the Foundation’s management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Foundation’s 2009 financial statements and, in our report dated July 7, 2010, we expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the American Diabetes Association Research Foundation, Inc. as of December 31, 2010, and the changes in its net assets and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

May 31, 2011

*See accompanying notes to the financial statements*
1. **Organization**

The American Diabetes Association (the Association) is a not-for-profit voluntary health agency that works to prevent and cure diabetes and to improve the lives of all people affected by diabetes. In October 1994, the Association's Board of Directors established the American Diabetes Association Research Foundation, Inc. (the Foundation), as a subsidiary of the Association. The objective of the Foundation is to fund diabetes-related research leading to:

- The prevention and cure of diabetes
- The prevention and cure of the complications of diabetes
- New and improved therapies for individuals affected by diabetes

The Foundation is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code (the Code) and charitable contributions to the Foundation qualify for charitable tax deductions as described in the Code. The Foundation has been classified as an organization that is not a private foundation under Section 509(a) of the Code.

The Foundation recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. The Foundation does not believe its financial statements include (or reflect) any significant uncertain tax positions.

The Foundation has been and continues to be dependent on the continued financial support of the Association to operate its core programs. The Association is committed to continue such support as necessary in order for the Foundation to sustain its research activities and to continue as a going concern.

2. **Summary of significant accounting policies**

**Basis of accounting**

The Foundation prepares its financial statements on an accrual basis in accordance with U.S. generally accepted accounting principles.

The net assets and revenues, gains and losses of the Foundation are classified for accounting and reporting purposes into three classes of net assets based on the existence or absence of donor-imposed restrictions. A description of the three classes follows:

**Unrestricted** - Net assets that are not subject to donor-imposed stipulations.
Temporarily Restricted - Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Foundation and/or the passage of time.

Permanently Restricted - Net assets subject to donor-imposed stipulations that they be maintained permanently. For the Foundation, this net asset class relates to an interest in a perpetual trust.

Cash and cash equivalents

Cash and cash equivalents are defined as currency on hand, demand deposits with banks or financial institutions and financial instruments with original maturities of less than three months.

Fair value of financial instruments

As of December 31, 2010 and 2009, the carrying value of cash and cash equivalents and research grants payable approximated their fair value based on the short-term maturities of these instruments.

Recognition of revenues

Contributions, including unconditional promises to give, are recognized when received. The Research Program is the sole program of the Foundation. Therefore, all contributions to the general research program are reported as unrestricted revenues unless further restricted by the donor. Generally, there is no time restriction presumed on unconditional promises to give as it is the practice of the Foundation to spend these contributions on the research program in the same year as received. Temporarily restricted contributions recognized in 2010 are restricted for future years’ research awards.

Unconditional promises to give are reported at their net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of the amounts expected to be collected. The present value discount is calculated using a risk adjusted rate at the time of the contribution ranging from 1.4% to 5.3%.

Contributed services

Contributed services are reported in the statement of activities at the fair value of the services received. Contributions of services are recognized if the services received create or enhance nonfinancial assets or if the services require
specialized skills and would typically need to be purchased if not provided by
donation. Contributed services reported by the Foundation relate to the panel
review of research grant applications and are recorded as both contributed
professional services revenue and expense on the statement of activities.

**Research Grants**

Research grants awarded by the Foundation generally extend over a period of one
to three years, subject to renewal on an annual basis. The liability and related
expense is recorded when the recipient is notified of the annual award amount,
and the liability is recorded as research grants payable in the balance sheet.

**Concentrations of credit risk**

Financial instruments that potentially subject the Association to concentrations of
credit risk consist of deposits in banks and investments, including collateralized
sweep repurchase agreements, in excess of the Federal Deposit Insurance
Corporation, Securities Investor Protection Corporation and other privately
insured limits. As of December 31, 2010 and 2009, bank balances over the FDIC
limits were secured with overnight investments. The Foundation has not
experienced any credit losses on these financial instruments in past years and
management does not believe significant risk exists at December 31, 2010.

**Functional allocation of expenses**

Expenses have been summarized on a functional basis in the statement of
activities. Accordingly, certain costs have been allocated among program
activities and supporting services.

**Management estimates and uncertainties**

The preparation of financial statements in conformity with U.S. generally
accepted accounting principles requires management to make estimates and
assumptions that affect the reported amounts of assets and liabilities and
disclosure of contingent assets and liabilities at the dates of the financial
statements and the reported amounts of revenues and expenses during the
reporting periods. Actual results could differ from those estimates.
Comparative financial statements

The statements of activities and functional expenses include certain summarized comparative information for the year ended December 31, 2009. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Foundation’s financial statements for the year ended December 31, 2009, from which the summarized information was derived.

3. Transactions with the American Diabetes Association

Research program

The Foundation facilitates the Association’s research program. Accordingly, all contributions for research raised by the Association are granted to the Foundation. These research restricted contributions to the Association totaled $5,328,706 and $4,297,569 in 2010 and 2009, respectively. The Foundation also receives gifts for research directly from donors, which are reported as contributions in the statement of activities.

Grants from the American Diabetes Association and management fee

The Association provides grants to the Foundation for its research purpose as determined annually based on a formal budgeting process, which is approved by the Association’s Board of Directors. The Foundation is reliant on this grant support, as well as donor support, for its continued operations.

The Foundation pays a management fee to the Association equal to twenty percent of contributions. This fee compensates the Association for staff and other administrative services provided to the Foundation.

The Association transfers assets to the Foundation based on the timing of grant payments due. As of December 31, 2010 and 2009, the Association owed the Foundation $6,113,146 and $4,919,988, respectively.
4. Contributions receivable

Contributions receivable as of December 31, 2010 and 2009 are expected to be received as follows:

<table>
<thead>
<tr>
<th></th>
<th>2010</th>
<th>2009</th>
</tr>

</tr>
<tr>
<td>Less: allowance for doubtful accounts</td>
<td>(1,116,000)</td>
<td>(588,083)</td>
</tr>
<tr>
<td>Less: present value discount</td>
<td>(181,779)</td>
<td>(185,820)</td>
</tr>
<tr>
<td>Contributions receivable, net</td>
<td>$5,461,722</td>
<td>$6,345,648</td>
</tr>
</tbody>
</table>

5. Subsequent events

For the year ended December 31, 2010, the Foundation evaluated subsequent events through May 31, 2011, which is the date the financial statements were available for issuance.
