

Participant Center and Fundraising on Facebook

You can raise money for the Tour de Cure through Facebook! By adding the boundlessFUNDRAISING™ tool to your Facebook page, you can extend your fundraising efforts to your networks of friends on Facebook. Here's how it works: Once you've added the boundlessFUNDRAISING™ tool to your Facebook, you'll have your fundraising progress on your Facebook page where you and your friends can check your progress and donate to your efforts. Your friends can click a link to make a donation towards your fundraising efforts. Your friends can also click a link to join your team. It's that easy!

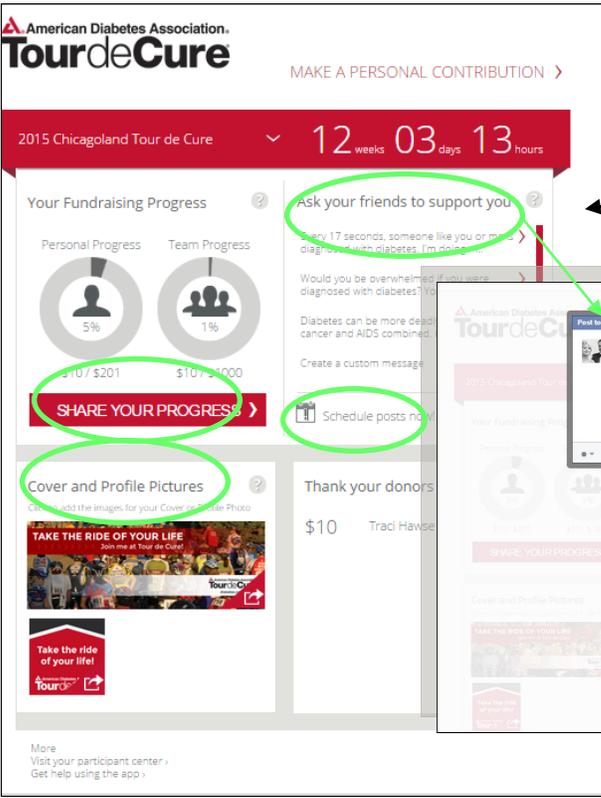

Step 1: When you log in to your Tour Center, look for the Go Social box and select. On the next page, select the Boundless Fundraising Application (Blue Hyperlink) under “Facebook Apps!”

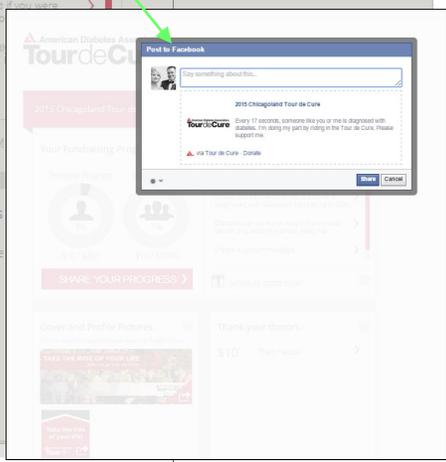

Step 2: This will bring you to Facebook and prompt you to login. Once logged in, you will be asked to review the application. Click “Okay”.

Step 3: You will be asked to allow the application permission to post your Tour information on your behalf and to access your data. Click “Okay”.

Step 4: This will bring you to the settings screen. You can revisit this screen anytime by accessing the application through your profile. Here you can choose a Cover or Profile photo, share your progress with your network, or use a prewritten “Ask your friends to support you” message to post to your wall and automatically include a link to your personal fundraising page. The application will also post updates to your wall as you receive donations to the event. You can opt to click the “Schedule posts now” tab at the middle of the page to select specific messages that will go out automatically.
